I am urging you to reject the NAB's petition 04-160. The traffic and weather channels give me the INSTANT traffic information that I need. The local traffic channel gives me the traffic every ten minutes, and then only hits the major roads in the nearby city. There are times that I cannot wait ten minutes and the service I AM PAYING FOR gives me the immediate information that I need. NAB should NOT dictate what I can hear WHEN I AM PAYING FOR IT!! Again, I urge you to reject the NAB's petition 04-160.
Thank you.
